Driver Installation

Windows XP/2000/Me

> Windows XP/2000/Me users do not need to install drivers. Windows will detect and install the necessary drivers automatically.
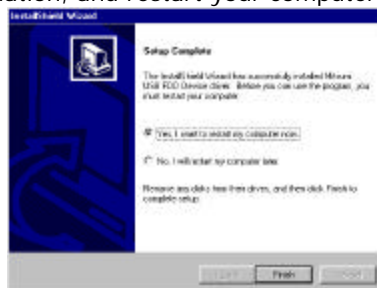

Windows 98
Windows 98 users must run the driver installation utility located on the driver CD.

1. Insert your driver CD into your CD-ROM drive and run "**X:\mitsumi\setup.exe**" where X:\ is your CD-ROM drive letter.

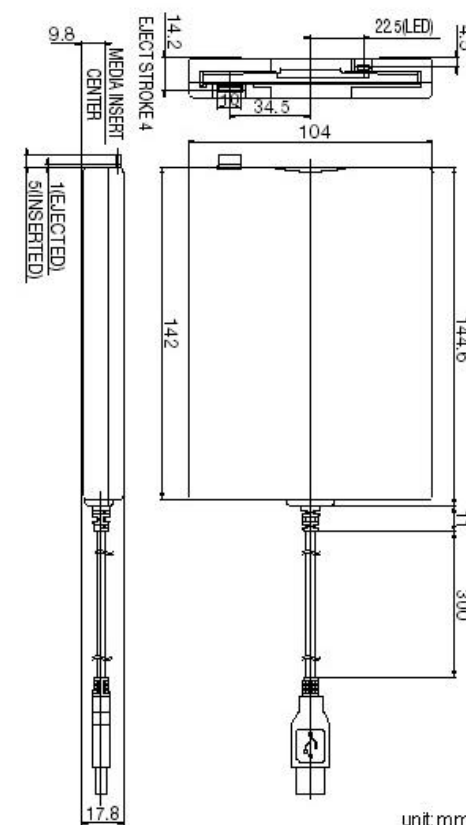

2. Windows should begin installing the necessary drivers. Click "**Finish**" to complete your driver installation, and restart your computer

3. After restarting, connect the USB cable from your new USB Floppy Drive to an available USB port. Windows should detect your new device and create a new driver letter under "**My Computer**".
